

Aram Bartholl - CV [PDF](#)

geboren 1972 in **Bremen**
Ausbildung: **UdK Berlin**, 2002

Aram Bartholls Werk bewegt sich an der Schnittstelle zwischen Internet, Kultur und Realität. Die vielfältigen Kommunikationskanäle sind selbstverständlich geworden, doch wie beeinflussen uns diese? Gemäß des Paradigmenwechsels der Medienforschung fragt Bartholl nicht nur, was der Mensch mit den Medien macht, sondern auch in wie weit die Medien den Menschen verändern. Das Spannungsverhältnis von öffentlich und privat, online und offline, von Technologieverliebtheit und Alltagsleben liegt im Kern seines Schaffens. In Form von Interventionen und Installationen im öffentlichen Raum untersucht Bartholl die Wirkung, wenn Bestandteile der digitalen Welt mit der Realität zusammentreffen.

Aram Bartholl ist Mitglied der Künstlergruppe **Free Art and Technology Lab - F.A.T. Lab** und bewegt sich in netzpolitischen Kreisen wie z.B dem Chaos Computer Clubs. Neben zahlreichen Vorträgen, Workshops und Performances wurden seine Arbeiten international u. a. ausgestellt im **MoMA** Museum of Modern Art, NY, **The Pace Gallery** NY und **Hayward Gallery** London . Aram Bartholl lebt und arbeitet in Berlin.
